Fowler (Back and Knee / Leg adjustable) bed with conventional head and foot boards and side railing

Fowler (Back and Knee / Leg adjustable) bed with stainless steel laminated head and foot boards and side railing

Fowler (Back and Knee / Leg adjustable) bed with polymer moulded head and foot boards, and side railing

BX4000 Plus Fowler Bed

The BX4000 plus fowler bed has the facility to raise the back and upper leg sections, which are operated by the crank mechanism provided at the foot end of the bed. The raising section allows the nursing staff to change positions for various activities and clinical positions with relative ease.
